# M10000i Energizer

G379514

The world's most powerful Energizer. Combining the brute force power of 100 joules with the fence monitoring capabilities of the i Series' adaptive technology, the new M10000i will deliver more power than any other Energizer available today.

- 100 Stored Joules
- Multi-wire/Some Vegetation:  
125 Miles / 3,000 Acres
- Operates on 110V power
- Reliable and adaptive, delivering more power when it matters
- Peace of mind that stock are where they should be and your fence is working to an optimum level

# M10000i Energizer

Reliable and adaptive performance even in extreme conditions

# Energizer Controller

Place in a convenient location for instant updates (connects to Energizer)

# Additional Fence Monitoring Upgrades (sold separately)

**SOLD SEPARATELY**

Remote & Fault Finder  
G50700

Pinpoints the fault within the monitored zone saving hours searching for and fixing faults. Remotely switches the energizer on/off

Fence Monitor  
G51000

Add up to six on your fence system to turn it into a fully monitored set up

SMS Controller  
G56760

Fence Performance information sent via SMS text to your phone (Operates on GSM Networks Only: AT&T/T-Mobile)

Alarm System  
G57900

Monitors a section of fence and drives external strobe lights, sirens or similar devices if the circuit is broken
